ASWN 2003 is the third workshop on Applications and Services in Wireless Networks. The first two events were held in France, and in 2003 the workshop will take place in the capital of Switzerland. ASWN 2003 aims at investigating new developments in wireless networks focusing on applications and services. The workshop will provide three-day presentations of invited and regular papers from manufacturers, academia, and services providers. Tutorial sections will also be possibly organized.

PAPERS: Authors are invited to submit full technical papers on both theoretical and practical aspects of the ambit of the workshop. Areas of interest include, but are not limited to:

- Media Distribution over Wireless Networks
- New Data Services for Wireless Network
- Audio-visual Applications for Home and Business
- Inter Domain and Inter System Mobility
- QoS Profiling and Pricing, end-to-end QoS
- Security and AAA Aspects
- Nomadic Services, Interface Management
- Mobile ad-hoc Networks, Multihop Wireless Networks
- Wireless Local Loop Technologies
- Wireless Personal Area Networks
- Software Radios
- Enabling Technologies and Architectures, 3G and beyond
- Service Development, Validation & Test
- Service Creation and Discovery
- Location-based Services
- Middleware for Mobile Applications and Services
- Mobile Multimedia
- Performance of Mobile/wireless Networks and Systems
- Mobile Service Interworking
- Context and Ambient Awareness
- Cooperative Networks

All submitted papers will be judged on quality, originality, clarity and topical content. The papers must not have been published previously nor be under review by another conference or journal. Accepted papers will be published in the conference proceedings with ISBN number.

SUBMISSIONS INSTRUCTIONS: All paper submission will be handled electronically. Papers must be in English in two-column format (A4), using font no smaller than 10 points and not exceed 10 pages. Only PDF and Postscript formats will be accepted. Further information will be made available at the conference web site.

TUTORIAL PROPOSALS: Proposals for tutorials including content description and CV of the presenter should be sections should be sent to the Local Arrangements Chair.

PROMINENT PAPERS: The best papers of the workshop will be considered for publication in a special issue of Elsevier's Computer Communication Journal.

ORGANIZER: Computer Networks and Distributed Systems, Institute of Computer Science and Applied Mathematics, University of Berne. Visit our site at: <http://www.iam.unibe.ch/~rvs>.

IMPORTANT DATES: Paper submission due (Extended): **March 10, 2003**
Notification of acceptance: **April 22, 2003**
Camera Ready due: **May 15, 2003**
